## Frequently Asked Questions

### Q. What is Open University Validation?

A. Through its Royal Charter, The Open University (OU) is able to validate programmes offered by institutions that wish to offer OU awards. The Centre for Inclusion and Collaborative Partnerships (CICP) is the unit in the University that manages its validation activity. To date over 150,000 students have achieved an OU validated award.

### Q. What is an approved institution?

A. You are studying at Amity Global Varsity, which has been approved by the OU as an appropriate organisation to offer higher education programmes leading to Open University validated awards by following a rigorous process. Institutions are 're-approved' on a regular basis to ensure that they continue to meet the OU's criteria in terms of procedures and resources for teaching, learning and assessment, staffing and staff development, academic organisation and internal quality assurance systems.

### Q. What is an OU validated programme or award?

A. You are studying on a programme validated by the OU, which, if you complete it successfully, will lead to an OU validated award. Awards can be undergraduate (e.g. BSc (BA (Hons), Certificate or Diploma of Higher Education, Foundation Degree), or postgraduate (e.g. MBA, Postgraduate Certificate, Postgraduate Diploma).

Amity has designed your programme, for which it has full responsibility for teaching, assessment and further development, before submitting it to The Open University for validation.

OU validation is a stamp of quality that guarantees the value of your qualification. It responds to stringent quality assurance processes, such as external examiners scrutiny and the systematic application of the Quality Assurance Agency defined standards. This means that OU validated programmes are equivalent in level and standard to similar awards offered throughout UK higher education. They are exactly the same as OU direct awards in terms of employment and application for postgraduate study.

### Q. How does the OU guarantee programme quality and standards?

A. University assures itself of the standard and quality of its validated programmes through the following mechanisms:

- The validation and revalidation processes, which involve panels of experts from higher education (and industry where appropriate) both within and outside the relevant subject area. In order to reach a decision about whether or not to (re-) validate a programme, the panel has detailed discussions with the staff team, employers and students, and considers the proposed curriculum and assessment regulations and other programme documentation. Any major changes to a programme are validated and programmes are revalidated regularly. Scrutiny of the

institution's own quality assurance procedures. As part of the approval process, we check that your institution has appropriate quality assurance procedures in place such as external examiners, student, staff and employer feedback mechanisms, analysis of statistical information and annual monitoring. Your institution is required to produce an annual report to the OU through which the University can monitor the institution's quality assurance procedures and ensure that any concerns are addressed.

- The appointment of external examiners to every OU validated programme. The role of the external examiners is to check and confirm that your assessment has been fair and just and that the academic standard of the award has been achieved. All external examiners produce reports which are considered by both the institution and the OU. The OU monitors these reports and the institution's response to assure itself that the quality and standard of the programme are being maintained. Your programme information must include the details of the relevant external examiners, such as name and position. In addition, your institution should give you access to external examiners' reports.

### **Q. What is student's relationship with the OU?**

**A.** Although you are studying for an OU validated award, your primary relationship is with Amity and you must follow its regulations and procedures.
